HISTORY OF ST. AUGUSTINE

1832 - Franz Joseph Stallo established the settlement called Stallostown. Father Rese celebrated the first Mass here in November of 1832.

1834 - Bishop Purcell officially established the Stallostown Mission.

1835 - A log church (60 feet long, 40 feet wide, 16 logs high with seating for 330) was built where the present day Gazeebo sits. Covering a vast area, from which other parishes formed, St. Augustine is known as the "Mother Church" of the region.

1836 - Stallotown Mission was formally established as St. Augustine Parish, and the town was renamed Muster/Minster.

1845 - Priest of the Society of the Precious Blood came to St. Augustine and have since continuously served the parish.

1848 - Nuns of the Society of the Precious Blood arrived in Minster to teach and did so until 1988. In that same year construction of a new church began in the current location. The church was 120 feet long, 60 feet wide with an 160 foot tower on the east end.

1874 - The original single tower was removed and the 190 foot twin towers were constructed on the west end, adding 20 more feet to the church.

1878 - The stately Gothic stained glass windows were installed.

1896 - New Pilcher two manual pipe organ, with tracker action and hand pump, was installed. It was re-built in 1939, incorporating an electro-pneumatic action, new console, and additional ranks of pipes.

1900 - Main entrance was changed from the east end to the tower end on Hanover Street. The sanctuary apse and sacristies were added on the east end, as well as installing new floor, pews, and heating system. The original flat ceiling of the church became the distinctive half barrel ceiling, adorned with seven beautiful hand paintings.

1922 - The grade of Hanover street was lowered, necessitating the new front step approach.

1929 - Heavy gauge copper and gold leaf crosses were placed on the steeples replacing the original wooden ones. A piece of the original wooden crosses can be found at the rectory.

1939 - Eight black-faced tower clocks with gilded numerals were purchased.

1947 - Side entrances were constructed.

1954-1963 - Major renovations to repair existing structure along with the addition of a modern audio equipment, screen placed before the organ pipes, new oak pews & confessionals, new marblette floor poured, and new interior furnishings (altar, side altars, statues, stations of the cross, and center mosaic.

1967 - Main altar placed in the forefront facing the congregation in accordance with Vatican II.

1973 - Glass doors etched with apostolic figures were hung.

1996 - Illumination of the twin towers.

1997 - Interior of the church re-painted.

2012 - Air conditioning was installed.

HISTORY OF ST. JOSEPH

1852 - Bishop Purcell granted permission to establish St. Joseph Parish in Egypt.

1852 - The first church was a 52 feet by 28 feet framed building due east of the present day St. Joseph Church on the southeast corner of Minster Egypt Pike and State Route 364. Johann Albert Osterloh also deeded land for the purpose of a cemetery for the newly formed St. Joseph Catholic Church.

1856 - Because Fr. Brunner felt convents were necessary to encourage vocations to religious life, he built them near may churches. On Christmas Eve, 1856 the Sisters of the Precious Blood dedicated the new chapel and convent to Mary's flight into Egypt. Their convent was a presence of prayer and support to the community, especially in times of difficulty and sorrow. A picture of the convent hangs in the vestibule of the present day church.

1859 - Sister Hewing Flamm opened a school for dependent girls. The one room school was south of the convent near the road.

1877 - After 26 years the wooden church was its wear and construction began on new brick church located in its present location. The new church was dedicated in 1878.

Circa 1900 - The high altar and the matching side altars, constructed in the workshop of St. Joseph's Orphans Home in Columbus, installed and are original to the church.

1912 - Rectory on the north side of church was built.

1918 - A two-room school house was built across the street from the cemetery. It was staffed by Precious Blood nuns, who taught there from 1922 through the spring of 1961.

1926 - Major renovations to the church began. A basement was dug for a coal furnace, sacristies were added, sanctuary was made larger, and confessional was built in. A vestibule, a baptistery , and larger landing to the choir loft were put in. Doors to the north and south at the front of church were also put in. Most significantly the addition of a domed bell tower was added. The church was rededicated in 1927.

1939 - Vividly-colored stained glass windows installed. Of particular interest is the window depicting Mary's Flight Into Egypt, which commemorates the convent that stood in Egypt from 1857-1912.

1948 - Additions were made to the school that included a basement, indoor toilets, and storage.

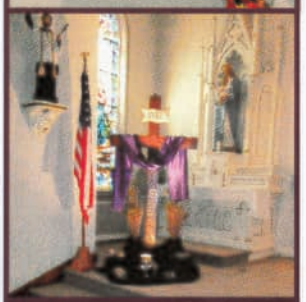

1991 - Interior of the church was repainted and roof repaired.

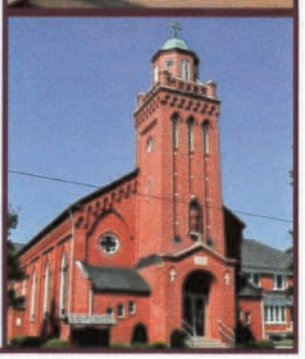

1992 - Present day - With an active congregation the church has maintained and added innovations throughout the years. Baptismal font was moved to the front of church and its former space was converted into a cry room, handicap ramp and railings were added, ceiling fans were installed, new carpet put in the nave, new furnace installed, a rest room was added to the south of the sacristy, new water well was drilled, and removal of the chimney. St. Joseph's members are grateful for the church where they can practice their faith and it shows in the manner in which it is cared for.

ST. AUGUSTINE CEMETERY

A three-acre square parcel of land was purchased by St. Augustine Parish in 1836 outside the village's southern limit at the foot of Hanover Street from John Bernard Feldmann. The church treasurer paid seventy-five cents for the writing of the deed in the spring of 1837. This cemetery was one of the few Catholic places of burial in northwest Ohio in those early years. Deceased Catholics from a wide area surrounding Minster were buried there as well as the deceased of the parish.

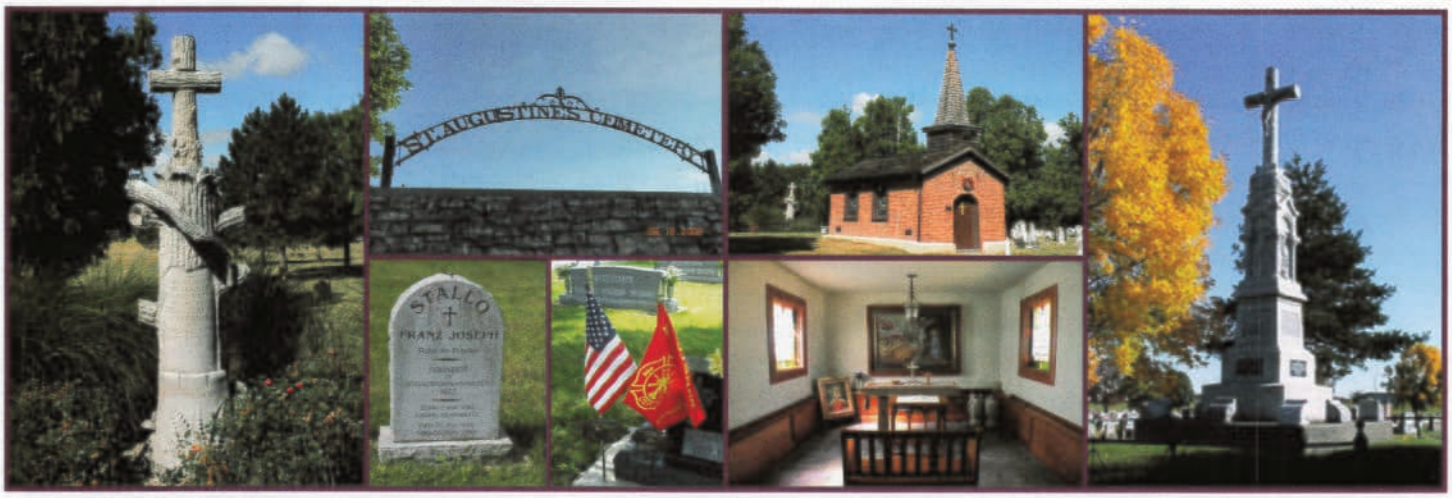

A devastating cholera epidemic, sweeping the whole of the earth at the time, struck the town in 1849. The bodies of the victims were buried in the cemetery in an unmarked mass grave consisting of several trenches. A monument to the memory of all the cholera victims was erected in 1937. The inscription of the memorial reads: *In Pious Memory of All Our Cholera Victims, over 300, Especially in the Year 1849.*

A recognized feature of the cemetery is the Steinemann Chapel which was erected in 1855. John Henry Steinemann built this chapel in thanksgiving for the recovery of his wife, Catherine Gertrude Meyer, from a serious illness. John Henry was assisted in the building of this chapel by John Michael Drees. The building measures 12 feet in width and 18 feet in length, and is constructed of red brick made at the Steinemann brickyard. It is topped by a shingled wood steeple and copper cross. An oil painting, *Souls in Purgatory,* brought from Germany in 1852, hangs behind the altar. The chapel was originally used by the priests as a shelter from inclement weather when they assisted at burials. In the early 1950's the chapel was restored. The Steinemann heirs donated the chapel with a sum of money for its maintenance to the parish in May, 1975. The chapel is open to the public from April 1 to December 31 from dawn to dusk. It is closed during January, February and March.

Nine acres of land were purchased as an extension to the cemetery for a sum of $1000.00 from Theodore and John Dickmann on February 21, 1884. This addition was consecrated on May 16, 1887 by Father Henry Drees, Provincial of the Society of the Precious Blood, as representative of Archbishop Henry Elder. Father Christian Nigsch, pastor of St. Augustine at that time, erected an iron fence on the northern boundary of the cemetery facing First Street. An imposing monument, set in the center of the cemetery, and featuring a crucifix, was dedicated in the spring of 1891, to the memory of former Pastor Father Andrew Kunkler, C.PP.S. The ground around the monument serves as the final resting place for priests.

In 1960, contemplating the future needs of the parish, Father William Meyer purchased a tract of twenty acres lying west of the oldest section from Clarence Walters for the sum of $20,000. Five acres of this land was later sold to the Village of Minster for future expansion of the Sanitary Disposal Facility.

A Cemetery Committee, consisting of seven elected members and serving under the direction of the Parish Council, was formed in May, 1976. The purpose of the committee is to assist the pastor and council in establishing policy and attending to the day-to-day operations of the cemetery. The Cemetery Committee formulated a set of regulations for the governing of the cemetery in 1979. This document was submitted to the Parish Council and adopted in January, 1980.

ST. JOSEPH CEMETERY

Egypt's St. Joseph Parish, traces its origin to August 14, 1852, when Cincinnati Archbishop John Purcell granted Egypt's residents permission to establish a church in their community. Traveling to Minster was difficult in those early years. Paths used as "roads" were often impassable, making it a hazardous trip, especially in cold, rainy or snowy weather, as travelers often made the four to five mile trip on foot. To make matters worse, many times there was no room inside and Mass goers would have to stand outside the church during Mass.

The original church was build due east of the present day St. Joseph Cemetery, in the southeast corner of Egypt Pike and today's St. Rt. 364, on land belonging to John Heitman. A small bell was donated by Henry Knapke. J.H. Stricker and Mary Brandewie were the first couple to be married there.

On September 11, 1852, Johann Albert Osterloh deeded land for the purpose of a cemetery for St. Joseph Catholic Church to Archbishop Purcell. The first funeral held there was for Anna Mary Knapke, a child of two years. Since they had no resident priest, Precious Blood Fathers came from Minster and Maria Stein every Sunday and twice during the week to administer to the spiritual needs of the congregation.

With the building of "Mary's Flight Into Egypt" convent, (1857-1912) Father John Witmer became the resident priest and St. Joseph became the hub of religious observances until the convent chapel was completed in 1858. St. Joseph Cemetery has been the burial ground for the residents of the convent, as well. A total of 46 nuns, six brothers and 3 orphans are buried there. Over time the engraving on their tomb stones weathered to the point of becoming unreadable. In July, 2011, in order to preserve their history, Sisters of The Precious Blood erected a monument on the cemetery containing all their names.

In 1878, under the guidance of Father John Van den Broeck, the present brick church was built on the south side of the cemetery lot. Father Van den Broeck is buried at St. Joseph's cemetery near the large crucifix that marks his grave.

Over the years, the cemetery grew in size and more land was purchased to fulfill the need. To preserve the history of the parish members, some tombstone restoration has taken place. The cemetery, containing more than 400 souls is being maintained and cared for by the St. Joseph's Men's Society.
